## Infant Radiant Warmer Diamond without Phototherapy Manufactured by Baby Care Equipments

### Specs :-

Infant Radiant Warmer is digital micro processor - based controller which comes with a full spectrum of features.

Control Panel : The Infant Radiant Warmer comes complete with automatic manual /baby (Servo) /Air modes.

In addition, the Skin/Air temperature display is larger than set temperature display. Skin temperature display can be converted from OC to OF by the push of a button. Two function control modes provide more flexibility while optimizing the thermal environment. A big LCD is provided for more information and visualizations of the heater power in manual and servo modes.

A full complement of alarms provide safety and convenience, with both audible and visual indicators in the event of :

- High Temp./ Low Temp.
- System Fail
- Probe Failure
- Power Failure
- Timer
- Heater

visual alarm provided

Dual digital temperature display allows easy visualization of patient temperature and set point.

Baby Bed : The spacious baby bed incorporates easy drop down/ fold down glasses for maximum access to the patient.

Castors : The system is fitted with 100mm high quality castors having brakes in front 2 castors.

Additional Features

If needed the unit can be programmed by the user itself for any of the following features:

- (a) Count Up / down Timer.
- (b) Check baby Alarm.
- (c) Pre warming mode.
